Hey everyone! I stumbled upon this awesome resource that I just have to share with the community.

Check out this link: [drive google com / drive/folders/1F7D5c30nP-y_Q7SFqoRTRvJ7tI0UcY3q](https://drive.google.com/drive/folders/1F7D5c30nP-y_Q7SFqoRTRvJ7tI0UcY3q) (had to put a space cuz it said possibly infected for some reason)

It's a collection of cybersecurity books, totaling over 5GB of content! Whether you're a beginner or not, for sure you're gonna find something new in this huge collection. From foundational concepts to advanced techniques, you'll find everything you need at your fingertips.

Don't miss out on this amazing opportunity to expand your cybersecurity expertise. Happy reading and happy learning!
