Thread: [What's the most that you've WON on gambling](#)

What's the most that you've won on gambling in a single sitting. I don't mean throughout the entire night, but one machine/table..etc

I only really play with small amounts of money, I usually will play with \$20 or \$50. When I win, I will withdraw what I began with and keep on playing with my winnings. I've played slots and walked out with about \$150.

In person it was around \$2,600 jackpot. Online it was a \$50 bet that won \$16k

That's pretty impressive! I don't think I gamble often enough to ever win anything that high. I just like to play slots and get free drinks ?
