Thread: [Insane bytes blackjack win](#)

Pimping - October 26, 2024, 5:07 pm

I started with 300 bytes and somehow turned it into 6.3k within 10 mins on blackjack
I got up to 1k and started losing and went all in on my last hand with 500 bytes, repeated it and won like 10 hands in a row hahaha

biggest win for me in bytes blackjack

Tried that, scamley rarely goes above 21. Got 20 several times only for the scamley to tie me or get

21.

I always end up losing my bytes lmao.

But hey, great job by even going from 300 to 6k+, that's pretty awesome!
