I do actually, yes.

What I do for work now is what I've wanted to do for many years. I never imagined I'd be in the spot I'm in today, but with the right people by my side, I was able to make it happen and it feels damn good.

Nope.

I want to get into the game industry as a designer, voice actor or writer.

I'm currently in the health sector, BIG difference lmao.

Yes I wanted to become a astronaut when I was younger. I then found computers and became a hacker.
