Thread: [Unlock YouTube and YouTube Music Premium Features Without Paying](#)

JoseMar - October 27, 2024, 4:06 am

I want to show you how to watch YouTube and YouTube Music without ads on Android Mobile, now also on Iphone!

Recently, a friend asked if I had YouTube Premium, and I told him, 'Yes, but I don't pay anything for it!' I showed him exactly what to do on his mobile, and now his whole family, as well as mine, use this method. It's not a WOW trick, since many people already know about it, but there are still some who don't!

After I send you, please don't criticize this for not being a true YouTube Premium method or it's a very old method that everyone knows about.

It's simply a way to enjoy ad-free videos and music, and you can still play content in the background.

If you're interested, just follow these simple steps:

1. Quick Love this post
2. Reply to this post
3. I won't share anymore with newly created accounts. You must have at least 50 posts or an upgraded account to qualify.

Please read through the thread carefully to understand that this is not a Premium method, but it does allow for ad-free and background use.

This thread won't be showing you any third-party tricks or software like YouTube Vanced, NewPipe, PiP, or anything similar.

This is the error what I got: Please correct the following errors before continuing:

¹³³⁷ has private messaging disabled. You cannot send private messages to this user.

Then you don't need this, as this method doesn't allow downloads. It only lets you play YouTube without ads and in the background.
