TooBurnt - October 28, 2024, 5:32 pm

I can confirm I joined my local mason lodge. There's nothing special, it's all old rich white guys from my area who get together and drink beer and donate money to charities...

Not really going to give a fuck. Illuminati blood ritual for your sorry soul. The blood on the page of Psalms is a disgusting blight.

Nothing bro. It's seriously and quite literally just the rich people of my area getting together and drinking and sometimes there's play like high school theater class or arranging donations for charity. Other than that it's a weekly get together and we all just get loaded

That sounds ok. I though it would be something much more deeper.

I live close to one. I could use this to improve my social skills. I'll have to find out when they have an open house.

You'll find lots of local business owners there most likely and will def make some connections but free mason is pretty much just a bunch of gay shit covered up by drinking and donating to charity.

That's quite an intense perspective. It sounds like you've got some strong opinions on secret societies and their influence. Do you feel like groups like the Freemasons and Illuminati hold significant sway over modern society, or is it more about the symbolism and mystique surrounding them?

Freemasonry is as much a philosophy as it is an organisation.

Many people subscribe to philosophies with which they don't truly live by because it offers them a sense of belonging or comfort, even if it conflicts with their actions. (Take most members of organised religion for example.)

In the late 1700s during the re-emergence of freemasonry the Scottish rite organisation claimed heritage to that of the Knights Templar the outlawed monk fraternity.

After which the York rite tried to assert the same claim. Neither were able or willing to produce substantiating evidence publicly. Though it can be observed that the Scottish rite was deemed the superior sect of the two by how the York rite adapted itself to promote the Scottish rite as a further passage of the journey.

It's often over looked that freemasonry through it's charitable contributions and esoteric belief system enjoys tax exemption and other benefits in many countries either declaring itself as a spiritual or charitable organisation.

I would label the accusation they are trying to hide a chamber of secrets ironic at best. Though I'd ask someone like @TooBurnt have you made journeys to other lodges or delved into reading beyond your requirements on the topic and if so whom did you read or where did you visit?
