Thread: [Where to find data breaches?](#)

SydneySweeney - October 30, 2024, 1:24 pm

[deleted] won't allow new sign ups due to invalid/broken captcha. There are Russian forums but they make you pay about \$200-\$500 for access. Any ideas?

7. Advertising of competing sites is not allowed. This refers to any website with a hacker forum that's similar to HF or has a relatively similar forum structure. Advertising includes signatures, PMs, profiles, and posts.

Please read our [Help Docs](#),

Thanks

Thanks

Didn't mean to advertise another site, but the question is still up, where to find crypto database leaks?

Kinda, like a person's information first name, last name, address, phone, and crypto wallet information, I'm sure data breaches from crypto exchanges have leaks like this all the time. I have a crypto investment firm and would like to use the data to help locate high value clientele.

Also a typical TTP of phishers looking for high-value victims.

Did you find the crypto DB / Leads?

Im interested in this information aswell.
