Why do you want to join the Olympians?:

The answer is honest and simple. You have a music sector and I'm interested in it.

Are you willing to be active in subforums (as well as the normal forums)?:

Yes I would like to be active in the SubForum

Tell me about your love/passion for music:

There is never a day when I am not accompanied by music. I use music as a sort of soundtrack to my life. When I'm working I'll either listen to something quiet and driving like Radiohead or something really banging like Rammstein, as long as I don't have to concentrate on the lyrics. When I'm on my bike, the lyrics can be a bit more complex. I don't want to get too verbose here. It's clear to me that music is very important to me. I like to deal with the story, but also with the technique.

Why do you think you would be a good fit?:

I think I fit into the group because I like to talk about music. I like to talk about the making of albums and who made them and how they were made. My record collection is very diverse and also very deep. I hope others can benefit from it as I hope to benefit from the others in the group.

Why do you want to join the music sector?:

I like to talk about music. I hope that I can get to know new music and also show new music. I am open to any kind of music.

Have you applied before?:

No

If you were denied previously, why?

No

Have you previously been in Olympians and have either been kicked or left and why?

No

Why do you want to join the Olympians?: have seen you guys for active for years and looking for a prestigious new group to join, I was part of the advisors & marketers in the past

Are you willing to be active in subforums (as well as the normal forums)?: yes

Tell me about your love/passion for music: loved hip hop since 20+ years ago, been writing lyrics for 15+ years, and used to battle rap. Going to a recording school that is Pro-tools certified with 50+ Grammy nominated Alumni this year in the summer later and will start my own talent agency / record label within this year. Also love every genre.

Hiphop,rap,drill,trap,grime,pop,EDM,house,trance,rock,soft rock, indie rock, classical , metal , r&b , etc.

Why do you think you would be a good fit?: I love the overall aspect of the group and have been a member of HF for 10+ years and have no open deal disputes or current altercations with any members and love that you have a music sector and want to get to know the rest of the group as well.

Why do you want to join the music sector?: I'm going to be a popular artist one day but resonate with what the music sector's about and just want to explore your guys' knowledge and integrate it into my future practices as well as do future collaborations.

Have you applied before?: nope

If you were denied previously, why?

Have you previously been in Olympians and have either been kicked or left and why? nope

Why do you want to join the Olympians?:

I want to join Olympians because I'm building something significant - Cruciferra Crypter that kills antivirus/EDR solutions.

Are you willing to be active in subforums (as well as the normal forums)?:

Yes. I'm actively posting in relevant subforums and will contribute quality content regularly.

Tell me about your love/passion for music:

Music is part of my lifestyle. I enjoy classical compositions for their complexity and emotional depth. While not my primary focus, I understand the value of community engagement.

Why do you think you would be a good fit?:

I bring proven technical expertise in reverse engineering and crypting. My Cruciferra Crypter bypasses EDR, behavioral analysis, and all major antivirus solutions. I've built this with EV certificates, advanced evasion techniques, and antivirus killer capabilities. This is the kind of technical excellence that adds value to any community.

Why do you want to join the music sector?:

I want to be part of a vibrant community that values growth, creativity, and technical excellence. I'm not just here for the music - I'm here to contribute quality technical content and build something meaningful.

Have you applied before?:

No.

If you were denied previously, why?

Not applicable.

Have you previously been in Olympians and have either been kicked or left and why?

Not applicable.

P.S. My Cruciferra Crypter is ready for launch with private stubs, EV certificates, and advanced antivirus bypassing. I'm offering a free .bat stub to Hack Forums members and have already secured several clients. You can check it out at <https://cruciferra.com/>

I'm not here to just participate - I'm here to contribute real value to the community.

Best regards,
Cruciferra
