Thread: [SOMID | Social Media Downloader Telegram Bot](#)

Don Cezar - October 31, 2024, 5:47 pm

SOMID, or by it's full name, Social Media Middleman, is a small Telegram bot wrote in python with the sole purpose to download videos and pictures from social media and send it back to the user.

<https://github.com/doncezart/somid>

Types of media compatibleInstagram posts (video, photo or carousel)

Instagram reels

TikTok posts (video, photo or carousel, no watermark)

narubasu - November 13, 2024, 7:15 am

Sounds like a good tool

hakjit - December 5, 2024, 12:51 pm

This is code should inspire anyone to learn Python.
