For me, it's the new Assassin's Creed.

I've always loved this series, even their flops are still fun to play at least. But the new one "Shadows" coming out looks to have an actual decent storyline as well.

GTA 6 hands down, the only game I am really waiting for.

I don't game as uch anymore, but I do play CS2 at least 4 days a week and play for maybe a couple of hours.

Never played assassins creed, but I see they're on Game Pass I might give them a go. Any recommendation on what one to try first?

Ngl. It's Squadron 42 by Starcitizen. Don't hate me. Check the 1 hour gameplay. It's pretty sick
