Thread: [Member Sales Market Permission Change](#)

**Omniscient** - November 4, 2024, 8:54 am

[Member Sales Market](#) permissions are now changed for regular members to create threads.

I also bumped it up in the sort order to give it slightly more exposure.

This is a change resulting from this thread: <https://hackforums.net/showthread.php?tid=6284034>

Thank you.

Wow, I didn't expect this to come back. I'm curious to see how many non-upgraded members will be creating threads.

Interesting. At least it shows you care and listen to what members have to say. Let's see how this move plays out! Thanks.

Are you open to granting access to Marketplace Discussions as well?

No, because then that's where noobs will think they should create sales threads.
