fagalite - April 1, 2009, 7:55 pm

is this for only browsers or game too?

PS got ballz showing your ip, or screwing someone else over.

Prettykitty - April 1, 2009, 8:09 pm

tested it doesnt really do anything

W4r10ck - April 1, 2009, 8:18 pm

It does work you have to set it up right if you dont it wont do anything ps: are you a girl pretty kitty?

Prettykitty - April 1, 2009, 9:38 pm

the serial doesnt work :(

it says unregistered even if i put it in! =o

Zw4R - April 1, 2009, 9:56 pm

ITs not working .in taskbar it shows your ip is form canada,china..etc..etc..but while cheking here <http://www.ip-adress.com/> my original ip was shown.

please throw some light if its working .Moreover i was using ultraproxy ;using of this platinum ip hide stopped that too and restored my ip to original.

Working fine for me?

Prettykitty - April 1, 2009, 9:59 pm

it says your registered? well i pt my serial it says update successful and then thats it O_O
then it says im still unregistered...

BigMac - April 1, 2009, 9:59 pm

just use a proxy with your web browser...

google:::

internet explorer how to proxy

firefox how to proxy

etc...

Results: 19/38

ran a virus scan with virus total and got 19/38 :s

Rampant - April 2, 2009, 6:10 am

Doesn't work. Fail.

Does he even realize it doesn't work? :O

System32 - April 2, 2009, 6:12 am

This dosen't work, I've downloaded few versions, and none of them work...

Hide My IP 2008 is the best, but can't get crack,serial or keygen...

W4rIOck - April 2, 2009, 7:23 am

Oh shit I forgot I am sorry guys the keygen doesnt work i didnt use this keygen i used a different keygen close this thread I will just make a better thread with a working keygen etc.....

Run TNTProxy since it requires no downloads and is the fastest proxy I know of

camarazon100 - February 8, 2017, 9:27 am

the serial doesnt work :(

it says unregistered even if i put it in...
