Lefty - November 7, 2024, 4:58 am

I had such a good run on blackjack but it seems like my luck has been running out recently. I wonder if the chances to win has decreased haha

BPName - November 7, 2024, 5:03 am

Well... keep posting on the check
Happy :)

plops - November 7, 2024, 5:12 am

I feel bad for you bro. I sent you 2 bytes to compensate

Deany - November 7, 2024, 5:41 am

Too much, time to stop gambling

SIM-2501407 - November 7, 2024, 7:30 am

Yeah i recommend not gambling lmao

FK71 - November 7, 2024, 8:53 am

There's a lesson here. Gambling is a bad idea. Only gamble what you're willing to lose.

Annuit cœptis - November 7, 2024, 8:54 am

I just donated you 250 bytes. Gamblers give up right before they hit big... never give up.

Biggy - November 7, 2024, 8:56 am

The beauty about bytes is they are easily obtainable.

Make some posts, create some threads, and check in to the daily check in and you'll get them back in no time.

Bad luck everywhere ? Maybe they going to increase because I'll only keep posting and be very active here, keeping bytes to fulfill the goal..

From now no more bytes gambling until I upgrade myself then trying the best on the gambling section ?

Niceeeee... I've had the same happen to me numerous times, it's part of the game. No worries, you will definitely make it back. I've had my good days playing 21, and also my bad days.. so no worries on making it back. I'm going to send you 59 bytes.. if you're wanting more, you should enter the contest and try your luck at 100,000 bytes. Free to enter.

Sad to hear you say, some time ago I also lost a lot of bytes, now I'm limiting gambling too because I'm trying to gain some bytes for the L33t upgrade.

Good luck man! Gambling is always a losing battle.

I'm in a Discord channel with someone who lost about 50k this past week.

F4tDoinkz - November 9, 2024, 12:19 pm

I have lost a lot more. You will recover, maybe.

Game - November 9, 2024, 12:41 pm

You should figure out the /flip in the Convo. That could get you some nice profit. It could also fuck you up if you're not safe.

There's some patterns you can figure out but it likes to mix it up now and then to fuck with you.

Haha, it definitely can be addictive. I find both Slots and Blackjack to be addictive, I've had to train myself to stop after accumulating a decent win, because if not, you end up losing it all later on down the line. I've won like 32k on slots one night, and left with like 11k by the time I was done fucking around. :\\

Nice.. glad to hear that you want to upgrade. It's well worth it in my opinion, and makes your time on the forum even more enjoyable. Looking forward to you upgrading.

I didn't say that in a bad way, I say that because insisting on gambling is not necessarily the best solution.

Sorry if you took it the wrong way. ?
