Thread: [Curious if anyone on HF here likes SDR \(software defined radio\)](#)

StillAScriptKiddie - November 7, 2024, 8:44 am

Like above, wondering if anyone here does SDR (software defined radio), and if so, what have you used it for? Share your thoughts below!

MFUK - November 7, 2024, 8:45 am

Hell yeah

there is no better feeling than reading the weather from directly from a satellite or locating and listening into ISS or watching plays fly around

StillAScriptKiddie - November 7, 2024, 8:47 am

Which SDR do you have? Just the ordinary RTL-SDR?

DramaKing - November 7, 2024, 11:05 am

One day I'll get into it.

Bastille - November 8, 2024, 1:41 am

I've always been curious about this field, but don't have enough time right now, there are already too many interesting fields related to IT and hacking

zerocool - November 8, 2024, 1:35 pm

I have 2 now, 1 running ADSB for 360Radar, and another I use just for general scanning running DSD+ Fastlane.

Great fun, I highly recommend getting into it.

You can't go wrong with either of these dongles.

Code <https://www.rtl-sdr.com/buy-rtl-sdr-dvb-t-dongles/>

<https://www.noelec.com/store/nesdr-smart-sdr.html>

kazuma - November 8, 2024, 2:55 pm

It looks super interesting but without a specific reason to buy the hardware and set something up I've just never made the jump to get into it.

I use the noelec, with OP25 for decoding trunking on my raspberry pi, can DSD+ Fastlane decode P25 Phase 2? I'm curious.

I believe it does, but nothing something I have tested.

Code
