Thread: [Reddit Traffic Methods for Kik?](#)

Net Hustler - November 8, 2024, 12:07 am

Hey HF I am looking for good reddit traffic methods my previous reddit account got banned for impersonation so there is a hurdle I don't think I can use pictures of my e-whore is there still good methods? that don't require posting images I bought a reddit account that has 1000 karma

Buying a Reddit account is a waste of money. E-whoring is an art; you buy an e-whore, use her photos for a week (only post SFW stuff), and make normal posts until you grow a good amount of karam yourself and account activity until it looks legit. You can't buy an account with Karma because you can't pick the name; that's bad.

After that, start slowly posting NSFW content and add some links to your profiles: snapchat, kik, and Instagram. Make it look REAL. You can go the 2 ways: fast e-whoring or slow e-whoring; slow wins. (also, growing time on an account matters! Reddit pretty much will mark you as spam for any weird movement; you gotta do it slow so they dont.)

they will have the name of the e-whore they created

First name: X

Last name: Y

name could be: X_Y916

or XY

not JungleAdhesive831037 (not a real username, just an example of a randomly generated reddit name)

I am not saying your wrong but aging an account with an Ewhore is just impossible. You can't age it faster than real time. Accounts with little age are a big red flag that is the main issue there. Yes you can create your own based on an e whore but you are going to have to age it.

Best bet is to get accounts with a name in them and just use that as the name for your whore. The name doesn't matter because it is all made up anyways. So if someone in theory made a bunch of accounts with different female names and aged them a year they could be great for this. Just my two cents. Of course you can do what you said and hope people don't care about the age of the accounts, but the thing is people do see if an account is a week or even a month old. You want at least 6 months to a year.

This would work; I am just saying aging an account with actual content is better.

For example, if you, yourself, made a post that xyz happened at yzx, you could then say to a buyer, Bla bla bla, one time xyz happened at yzx, and then you can refrence the Reddit post you made. Aging an account is not just about the account age; its also about its contents.

You can try posting gonewild stories (like erotic stories) but I wouldn't get my hopes up too much. NSFW Reddit is media based so it's best to post pics/vids. If you want to try something text related, go with Twitter.

But.. Reddit last couple months ban easy accounts i hate that, I am very tired from beginning from now every time. Because someone created a Bot. If u post something text, or picture they ban you easily.
