Thread: [Paypal](#)

nora - November 12, 2024, 2:49 pm

Hey anyone knows why i only can send people money from the same currency, when i need to pay them another currency it won't do anything and just cancel it.

webdev77 - November 12, 2024, 3:01 pm

This is a question best directed to paypal support. Most HF members use crypto because it doesn't suck.

PayPal typically offers automatic currency conversion when you send money in a different currency. If this feature is disabled or your account is set to only use a specific currency, transactions in other currencies may fail.

Hey, thanks for answering, do you know where i can turn it on?

gnojedkire - November 16, 2024, 4:49 am

Maybe in your PayPal account?
