Is there any way to validate if someone's method is legitimate?

There are people who have guides with vouches. I'm not quite sure how to validate them though.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

No, they are not. Do not buy any ebooks.

Just think of it logically. If they were legit, people would have no need to sell them.

Check out my guide, its free and legit.

The only problem is that you have to invest 60 usd but i recommend 100 usd because you will make your money back faster.

that's a great question. I also have some reservations about the legitimacy of many money-making guides, so i'm curious to hear others' experiences and perspectives as well.
