Thread: [Need a SEO Wordpress expert to see why my posts don't get indexed](#)

linkman46 - November 15, 2024, 7:32 am

Ok, willing to pay for some help here. I have a keyword with 0 searches I want to have indexed for specific purpose.
So I did a WP , some SEO plugin , and setup everything, wrote content with enough words and put it all rdy.
It was indexed maybe for some hours but most of the time it was not.
instead it indexes the homepage of the website but not the actual article/post.

willing to continue with an expert on this
[contract=tid]Start Contract[/contract]
