Are these scraped off of publicly available places or are these acquired through campaigns and dbs?

How much for 10k UK email leads with full info?

Acquired through surveys/campaigns/questionnaires/events/pools/games etc...

As for the price it depends on the niche you need and will need more infos about that full info you need.

Also delivery takes 72h as max delay but again it all depends on the order.

Reach out on telegram or send me a pm here with all the info you need and we might get a deal going.

dont waste your time by buying emails by him.
i bought 300k emails for 500€, after he claimed to have high quality leads.
after i send the money and he promised 1h delivery. i had to get 3 excuses further and 2 days later to get my list.
than after i tried to atleast have a relax sunday he just remove the chat 3 times for god know Is why include file blaming me for not saving it while i looked in the first place for a long time partner.

i put the leads into debounce and only 11% is valid.
thats not high quality. but shit. dont waste time with him. i dont care about the money but just a warning.

and if anyone sells good emakl leads please pm me
