Thread: [\[TheSEO.Network\] Niche Edit Backlinks Starting at \\$35 + Guest Posts](#)

Zher0 - November 30, 2024, 7:37 pm

The SEO Network presents...

Curated links on genuine REAL websites.

I've personally been using Curated Links for the past two years for SEO to rank all of my sites and PBNs. The power of these links is no joke. They are 100% natural links, from 100% real sites owned by 100% real people.

Let me explain what curated links, or niche edits, are all about - and why they can be a game-changer for SEO.

What is a Niche Edit Backlink?

Think of it like this: Instead of creating a brand new blog post to get a backlink (that's what [guest posting](#) does), curated links are placed within existing content that's already proven itself to Google. These are articles that have been around for a while, have built up their authority, and are already ranking well in search results.

What makes them so effective? Google has already given these pages its stamp of approval. The content has aged like fine wine, gathering authority and trust over time. When you add your link to this established content, you're essentially tapping into that existing authority - it's like getting a recommendation from someone who's already well-respected in their field.

The best part? These aren't links from some sketchy network of fake sites. We're talking about genuine websites run by real people who create authentic content for actual readers. Each site has its own engaged audience and established reputation. In the world of SEO, these kinds of backlinks are absolutely golden - they're about as powerful as it gets for boosting your search rankings.

Think of it as joining an existing, thriving conversation rather than starting a new one from scratch. That's why these links tend to pack such a punch compared to traditional guest posts.

How do I do it?

I use methods to mass outreach directly to website owners who've built up legitimate, respected sites. I find opportunities to naturally incorporate your link into their existing high-quality content.

Once i've secured the perfect spot for your link, I make sure Google notices the update right away by triggering a re-crawling of the page. This gets your link working its magic as quickly as possible.

Current Prices:

Relevant niche edit posts starting at \$35:

Basic: \$35 - Domain with 20+ referring domain names

Starter: \$60 - Domain with 100+ referring domains
Advanced: \$99 - Domain with 400+ Referring Domains

TAT is currently 14 days due to site owner's response times (usually shorter)

It would be a single high-quality link for each plan. We also offer boosting of that link with a link tiering plan. PM me if you are interested.

Works for both in the organic Google results. Increases overall domain authority if pointed to your homepage which is where Google is going these days.

If you are looking for map pack rankings we have a separate citations package.

Hi, unfortunately, we do not go based on traffic. We focus more so on real niche-relevant sites.

ZedObs1diaNN - November 29, 2025, 8:54 pm

still working?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I can vouch for this service. I have made use of it last year, never got to write a review because I couldn't log in on HF.

Basically I have an eCommerce local store and I was struggling with SEO against other local competitors due to lack of back links.

He helped me with setting up back links and also ranking better or on the suggested near you on google maps and I can say it has made a noticeable difference.

Don't hesitate to try him out as its an very good investment.
