None of the accounts have any community guidelines violations, or any prior disqualifications or appeals. All accounts are verified with TikTok to be in good standing.

A fully functional TikTok account with a minimum of the specified number of followers. All existing content, including videos, comments, and engagement metrics. Full ownership.

Dedicated customer support.
Problem with account? Get a new one for free.

10K+ Followers: \$99
100K+ Followers: \$149

Currently accepting: BTC, ETH, XRP, SOLANA
Can do PayPal for trusted users.

Note: The value of these accounts lay in access to the Creator Rewards Program rather than the pre-built audience/viewer base.

What is the Creator Rewards Program?
TikTok Creator Rewards Program is a monetization platform offered by TikTok that allows creators to earn money through various incentives and benefits. The program aims to support creators in producing high-quality content, engaging with their audience, and growing their brand.

One of the key aspects of the Creator Rewards Program is monetization. Creators can earn money through the program by creating content that meets specific requirements, such as views, engagement, or niche-specific content.

To get accepted into the program, you have to meet a couple requirements such as having at least 10.000 followers.
When buying an account from me you solve that problem and you can start earning money from your first post.

Gladly answering all questions in DM's or on Discord @bttswurmo (Steven)

I need one, but waiting on vouches

Lavish Living - December 3, 2024, 11:19 am

OP provided me a vouch copy of the 10k+ account.

It's primary audience is Indian, it does have CRP access. I haven't tested whether or not I can make money off the account. It definitely still is getting organic growth somehow haha. Very fast tbh.

OP is legit though. cheers.

? Please don't come on my thread and ruin it out of nowhere without even providing some sort of proof.

All customers can change ALL login info. If your account has been "hacked" after changing ALL login info that is absolutely none of my responsibility. Also i have sent you a PM regarding this.

Remove your comment please.
