Make sure to use a middleman if you deal with him.

BooGod has 1 open dispute and is likely a gambler since he's playing on Stake.

He might be looking for quick funds to gamble on Stake. After all, he has nothing to lose since his account is already burned.

Imfao. this is your first post and you seem to know how hf system works, so this should only mean that you're a multi ;)

as for advising him to use a mm with me, I don't mind it at all.
