Thread: [Design me full stack website](#)

SIM-2698200 - November 21, 2024, 6:01 pm

Hello HF,

I dont know whether its right place for posting such requirements but i need a professional who can design me a full stack websites for my projects.

Please hit me up for sharing my projects if anyone is interested.

Please note i want dead serious understandable actual developer i kindly request from skids who back and forth some pre built codes and further looking for an opportunity to scam run or quit my task in mid of working please avoid or pass/skip this thread. This thread is solely meant for real & actual developers who has great passion/patience in website platform building.

Hey let me know if you're still looking!

Happy to help / chat. Otherwise good luck if you found someone already.
