Hello,

This is Satan(Sotona) website, FUTURE is inside website well written, cheers.

Link: <http://sotona.info/>

What do you think, is it right information that Lionel Messi will die next year in January?

What do you think do we go on 0 in next year on X-Mas 25.12.2025 ?

Satan & The Creator as he claims he is, told us that everyone is death on 25.12.2025 from people. Earth will count 0 people alive! Satan & The Creator (He is both-Website sotona.info claims that he is), even my moment is to tell who can create Hell, only The Creator and Satan , The Creator would never allow it, if he is not both ...

Elon Musk must be masked Woman for years I bet.

We should , people from forum, like Omni as he is here boss, contact the Messi football player and ask him to check his health of body for example: heart and brain like EKG etc...

Omni I have information that you are death 25.12.2024, please control Heart and Brain like ekg and after it check your body is there any other diases like small cancers... I bet you will be happy, I have that information from same source as this sotona.info

What do you think, is God death forever, because Satan and The Creator (same person) destroyed own power of God?

Human power has been made and people are waiting for Marija Tetenovic from Vukovar, Croatia to be Satanist, so people can go forward and use the powers, I bet this is new and this is unlimited better of Bitcoin and all other systems.

I hope Omniscient you will be good and check your health :).
