Thread: [Twitter Employee accused of doxing user's](#)

Hero - November 23, 2024, 2:16 pm

The post claims that large anonymous anti-Israel accounts have stopped posting due to threats from prominent Jewish accounts who allegedly have access to their personal information. The author accuses X (formerly Twitter) of either being complicit or ignoring this behavior. Additionally, the mention of Elon Musk suggests a call for accountability from the platform's leadership.

Source of the claim: <https://x.com/jakeshieldsajj/status/1860437295079543004>

What are your thought's on these claims?

RangoWorld - November 23, 2024, 10:53 pm

I wouldn't be surprised if they got access to personal info.

Regardless Musk need to step up. It has been too long where big claims have been made and shady stuff has been exposed. Yet for the holier than thou free speech and transparency tweets, Musk doesn't reply or do shit.
