lightyear - June 13, 2025, 2:58 am
@narubasu
Where are you man ?

on June-01 I have paid \$50 for 100 Installs which not happened
You said will need a crypt with "startup option activated" so again
on June-07 I have paid another \$80 for a "private crypt"

I am still waiting.

I have the feeling that this forum is becoming a big kindergarten

@narubasu

I paid \$1200 for a RAT + Stealer/Keylogger (FUD, custom stub) setup on a VPS on the 23th of may. he delivered a RAT without stealer working. so he told me i have to sent him another money for him to set-up a better stealer together with the rat and he would Re-FUD it.
He put the stealer on the RDP and the Stealer was not working.....

Now after every 72 hours he comes online with the message (will fix before midnight).

its a small amount for me but the time wasted i can never get back.

Will update this post if he manages to make it right but right now im doubting his capabilities/intentions.

Update: he came back and sent me, will test later today to see if it is fixed.

Update 2: WORST EXPERIENCE EVER!!!!!! I FINALLY SOCIALLY ENGINEERED MY TARGET AFTER 1 YEARS OF GAINING TRUST AND THIS AMATEUR PROMISED A FUD FILE BUT THE TARGET'S ANTIVIRUS DETECTED THIS SHIT!

I would say you have definitely paid too much

I have initially paid \$160 for a RDP + RAT (Razor) + one Private Crypt (Which was not FUD)

Only thing is RDP which and a Razor without crypted stub

I have paid all together \$290 and i cant use it.?

I hope he didnt do the same with members.

STOP TALKING CRAP

Its now one week i am waiting for my "private crypt" and "100 x Installs"

After a Delay of 5 days, you wrote yesterday you will do it 100% same night.

NOTHING HAPPENED

I think you dont have the capability to "make private Crypts" and "rollout Installs" at all.
Only think you do is "subscribe RDP Server and install a RAZOR RAT" and forward it to the client

RAT without a FUD STUB = NULL

REFUND MY MONEY NOW !!!

OR

I will Report this to Admin and you will get banned.

@ALL MEMBERS
DONT MAKE ANY BUSINESS WITH THIS GUY

Always use HF Contracts. Without it you can't Dispute a deal.

Hi Omniscient

narubasu just contacted me under the new Member name bastuni and said
He cant make the FUD crypt with startup option for Razor and is ready to refund my \$80 crypto.

He made the Refund to my BTC Address.

For the Installs, we agreed that i organize the FUD Crypt by another vendor and send him the file
and he will make the rollout which is open by now.

He said he has some private Problems and that was the reason for this issue.

I can mark the issue as fixed.
