Do you support darkvision? where i pay how i buy?

davidlinchh - December 8, 2024, 3:02 am

hello your crypts support minkb tool?

rxtrnewhelio - January 8, 2025, 6:26 am

this will be able to crypt x64 .net 3.5+ files?

Temp_Phase_2 - February 14, 2025, 10:09 pm

Why so expensive? Can you pm me your telegram?

ExploitFinder01 - March 6, 2025, 4:53 am

That is not expensive. If it does what is required and the stub stays relevant for the duration of spreading and a bit longer due to persistence. My only question is has anyone tested?
