What's a project or accomplishment you're really proud of?

Getting my certifications. I was very proud of myself. Even though now a days some of my certs don't apply to my job I'm still proud i was able to successfully obtain them.

I'm proud that I was able to be the youngest person in a leadership position for the company I work for. I think about it alot honestly. Somebody saw something in me and pulled the trigger. I'm very proud of it and I appreciate the person that helped it happen.

Thanks OP.

It's good to feel proud and accomplished. Even the little steps add up.
