Assassins Panel Setup

Setup for Client on 10/12/2024

Server Setup Photo Proof [\(Click to View\)](#) ?

We provide Hosting / VPS / Server / Private File Share Domain alongside each setup.

What we provide?

We have our List of Botnets, RAT, Crypto Clipper for which we provide setup for. If you have root kits we setup them for you as well. We have collected root kits a well which we sell depending on bid and clients whom we deem trustworthy. Alongside the setup, we include VPS with FastFlux setup with minimum 10-15 Private Flux IP of which ownership we transfer it to you (or you can lease them and we guide where to lease them from), those IP will be from different locations (countries) making your setup fully bulletproof, full ownership is provided including support which we provide through Telegram if any troubleshoot is required.

We also provide with private file sharing website (ownership transferred to you as well) with multiple servers to keep them protected from SPAMHAUS blocks.

We also provide with FUD crypt for your STUBS which can be done anytime for free as long as you pay the Monthly FUD Support fee of \$25, although the first month is free which comes alongside with the setup package.

Dear members. It's HF Policy that if a seller refuses to use HF Contracts their account will be closed.

[Spam Assassin](#) has been avoid contracts then scamming.

I can't stress it enough to use HF Contracts if you want at the bare minimum the ability to Dispute on-site.

Again, DO NOT DO DEALS OFF-SITE, USE HF CONTRACTS, and if possible use a MIDDLEMAN.

Scammer now closed.
