Thread: [Permanent Uber/Leet Contest.](#)

Mooooookie - December 2, 2024, 1:34 pm

Thanks to Omni, members of the site have currently an opportunity to get Permanent Uber or Permanent Leet. This is only for a limited amount of time, so if you have the means to get it.. get it while you can. For those that might not have the means to purchase an upgrade, I'm going to give you an opportunity to get it for free.

I will be giving out 1 Permanent Uber or Leet to one member of the site. If you're interested in the upgrade, and currently dont have the means.. feel free to participate.

Participation is simple. Write up to a paragraph on why you deserve the Permanent Upgrade. So anywhere between 1 sentence and a paragraph, will be enough.

End Date: Waiting on answer as to when the Permanent Upgrade offer will be over. Will update the post when I have an answer.

I've been using the forum for a couple months now. Not logging in every single day and admittedly not posting an awful, but reading lots and learning valuable information. I enjoy clicking through and playing the Hack Game every now and then when I do remember to login. An upgrade would probably encourage me to visit and participate even more, and hopefully that'd lead to learning more. Thanks for running this contest.

"Happy to be a part of this upgrade—excited to see the improvements and contribute to making the forum even better!"

Thank you for this contest Mooooookie !!

I have been a member of HF since 2020. I'm mostly a lurker and have had a pleasant experience here so far. I look forward to providing dev services. I think an upgraded account would motivate me to be more active here, maybe help people sometimes on a pro-bono basis, and also help me market my services.

Hello, loooong time creeper here, was a script kiddie ages ago, had a ton of fun with RATs and some other malware, haha. I completed IT related studies and am now getting into programming, and am starting some little side projects. This site has been an absolute utility for me, and having leet or uber would be awesome!
