Thread: [Selling SRC Crypter TG BOT | Multiple Stubs \(C++/GO\)](#)

CygnusX0 - December 3, 2024, 12:41 am

? About the Crypter:

Completely native implementation in C++/GO with no external dependencies.
? Supports any software, including RAT, HVNC, Stealer, and more.
? Fully compatible with Native and .Net applications.
? Each build is uniquely generated for maximum security.
? Automated crypting via a user-friendly Telegram bot.

What's included:

Source code of the crypter.

Server written in Go.

Multiple stubs with implementations in C++, Go, and ASM.

Perfect for those who need a reliable and customizable crypting solution.

It really looks like a good project, why are you selling it? just out of curiosity ^^

nantantaiii - December 11, 2024, 7:04 am

do you have clone certs available?

bobomem535 - December 24, 2024, 6:53 am

it will work for dotnet and native all?
