Non affiliated in anyway: I am holding 2.5Trillion in bags.

Before this major cycle outbreak can we see a Solana or Binance Network pump to alts!?
The altcoin hype is major they're up if you're in you're green I bet.
Solana and Binance are just waiting to be popped!

The most hype potential I see is ticker \$Quack @RichQuack
They recently made a major comeback on Instagram after 4 years the cult is back for heads. Watch out Solana/Binance!
