Thread: [Looking for someone to spam reaction on specific telegram message](#)

AdGo57 - December 18, 2024, 8:47 am

Hello guys,

I'm looking for someone who would be able to send reactions (like or fire emojis) to a message I'll send on telegram.

The reactions need to arrive really fast after I post the message (5-25 secondes max). I need about 50 reactions. Would you be able to do that? and at what price?

If this works well, we could do it repetively and you would get paid everytime.

Please contact me.
