Thread: [What Altcoins looking good for Christmas?](#)

Beherit - December 19, 2024, 2:29 am

Santa decided to pick up some coins for the whole family:

\$ETH
\$HBAR
\$JTO
\$RAY
\$SHIB (eh, fuck it why not)

LSD - December 19, 2024, 2:40 am

Ah ONDO looks good, thank you! This week's been a lovely week to pick them up, especially with the dip.

ONDO at a great level here. I paid \$1.68 for a handful. If you can snag any at \$1.6 that's a good deal.

SAGA, same story. Anything below 1.55 is bullish

Yin Yang - December 19, 2024, 4:42 pm

Fading on sui is a mistake

ivankirevich - December 22, 2024, 7:37 am

Warthog, on CoinEx tomorrow, decent fundamentals

LSD - December 22, 2024, 11:25 am

if you want some real degenerate plays on solana chain

some AI Agent plays. ai16z is fully autonomous, permissionless AI dao (trades on its own, think of the token as a hedge fund share)

ai16z = 750m mkt cap
zerebro = 300m mkt cap

I don't mind a little gambling. What are you buying?

CBHF - December 24, 2024, 2:45 am

Loading my bags with:

GRIFFAIN
DEXTF
RENDER
TRISIG

Great projects with some cool utility behind them, couple are very low caps as well I would highly recommend looking into those ones

\$BC, just launched on Solana

<https://www.birdeye.so/token/BCNT4t3rv5Hva8RnUtJUJLnxzeFAabcYp8CghC1SmWin?chain=solana>

BC Game Casino generates 3million \$ per day. there will be buy back every week on DEX and tokens will be burned, 2m liquidity is a joke

I think the hottest meta right now is AI and AI agents: Virtual / Zerebro / Ai16z / Fartcoin are my picks.

Right now I'm holding

40% \$KOLIN

30% ai16z

25% AIXBT

15% kwantxbt

My solana wallet is also a very small portion of my total crypto worth aswell so, small risk.

boost - January 2, 2025, 5:29 pm

Sold my AIXBT earlier for 12% loss or so and threw it into Hey Anon. Up 80% rn on that buy. And 115% PNL from total (ico + recent buy). Dev ran 2 past projects to 2 bili+ mc. Lets see if he can do something with this new project kek

Current portfolio is 73% anon, 19% sonic, 6.8% fwog.

Maybe will rotate again later. Debating if i want to sell a good chunk and put it into FWOG. i like the meme and the frog is cute lol

aixbt + ai16z easily holding 50% attention share in the space

Eran - January 3, 2025, 3:12 pm

Not interested in having additional stress tbh, I hold mainly BTC, then some XRP, ETH, SOL, and

just a little ADA.

so glad i took the risk and got out of \$aixbt.

Good way to start the year. Up a decent amount on Hey Anon (x8 my portfolio). Took out my initial a few days ago. I still think if DeFAI takes off this cycle, this is a good coin have.
