Still water for sure. I hate how sparkling water tastes.

I never understood how people actually enjoyed sparkling water, I just couldn't get into it.

Zher0 - December 19, 2024, 5:53 pm

I prefer sparkling, but cannot drink it now due to stomach issues. I stick with still water for the moment.

San Pellegrino all the way. <3

Still water, sparking water is nasty.

Jinu - December 20, 2024, 9:55 am

If it has flavour I would choose sparkling. Else, normal.

I'm a weakling and dont drink the spicy water, just the still. IDK just never liked the taste of sparkling

Still water for me.
I like to keep it simple.

Prawnster - December 20, 2024, 10:49 am

Chilled still water is the best water, sparkling water is like TV static.

RangoWorld - *December 21, 2024, 6:49 am*

Just plain water for me.

Charlie Sheen - *December 22, 2024, 9:31 pm*

Plain still water. Preferably flavored.

Michael - *December 23, 2024, 4:10 am*

Prefer still water lol.

DanielZ - *December 23, 2024, 4:34 pm*

Still water, I can't understand why anyone would prefer sparkling.
