(Dec 19, 2024 07:37 PM)Alcinzal Wrote: [\[CITE\]](#) My Reoogle Review

I would first like to say that Reoogle is such a great and creative name, and reoogle.com is a 10/10 domain name, it looks extremely clean.

The Guide

As of writing this, The Reoogle Database Guide is 9 pages, but don't think there isn't a lot of information because of that page count. There are 3,145 words, and everything is explained thoroughly and in perfect English. The guide has good formatting, a solid structure, and is ordered in a way that makes sense. There are multiple sections for different subjects, like how to view and explore the database, how to properly request ownership of a subreddit, how to make money off these subreddits, and more.

The Database

As of writing this, The Reoogle Database has 5,512 subreddits listed, with the highest member count at 5,210,703 and the lowest member count at 100. In total, there are approximately 100 million members combined in all of the subreddits!

You can sort by members, last checked, or search the subreddits to find one that fits your niche.

Support

Sholi is helpful, fast and really good in English, so there will never be any misunderstandings or confusion. Generally, a good guy, so if you have any problems, do not hesitate to reach out to Sholi.

Summary

Honestly, this is a really good product, especially for that price, I mean, only \$25 for lifetime access? I can definitely recommend this, there is plenty of money to be made here.

10/10

Will be back tommorow for this:)

alcinzal - December 19, 2024, 6:37 pm

Looks interesting. GLWS!

Edit: Check convo, it's pretty urgent.

Edit 2: I discovered a vulnerability on the site, however, instead of using it maliciously for my own benefit, I reported it to Sholi right away. In return, I got a free lifetime membership, which was not something I requested or expected, but Sholi was kind enough to offer it to me. This is why I recommend everyone to be a good samaritan, just like I was ?

PS: The vulnerability has been fixed, it was fixed by Sholi almost instantly, and it was nothing serious. It wasn't something that could impact users in any way, no sensitive data was at risk.

New update:

Added Best Posting Time analyzer which you can combine with our subreddit database to achieve maximum results. Find out which times are best to post in a specific subreddit for max engagement and exposure.

Maxton Steele - January 23, 2025, 5:55 pm

Can we integrate this into [deleted] for our members? I would just buy you out so you stop selling here.

schoolexploits - January 30, 2025, 7:48 am

Posting to save for later

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Over 50 paid users.

No such (auto-post/bulk-post) feature from the dashboard if that's what you mean. It's a database.
