Thread: [Where to post certain products/guides/listings?](#)

Flan. - December 20, 2024, 5:54 am

Hey guys I'm trying to get a handle on where to post certain products/guides. I want to make sure I'm posting in the right place since it's been awhile.

Sorry to ask but really would appreciate the help.

1. Where do I post free guides? (Hacking, Social Engineering, Non-moneymaking)
2. Where do I post free moneymaking guides?
3. Where do I post paid guides? (Crypto & Marketing Related)
4. Where do I post paid products? (Telegram bot, Subscription Services, etc.)
5. I've noticed when some people make a thread about giving a guide/strategy for free, but then inquire users to DM them instead of just sharing in the original post, why is that?

Sorry again if these are too many questions, I'm just stuck on where to post these things and even where to ask lol.

Thank you all!

Happy to give some bytes to someone that helps, I know it's not a quick ask.

Free guides you can post in the relevant section.

Free money making guide you post in monetizing section.

Paid as well there or in products / services. Depending.

Products you post in Marketplace products.

I don't know why they ask people to DM. You can make a guide paid for bytes. That way people can pay a small amount of bytes to unlock the guide and you get those bytes essentially.

Each section has its own rules. So read them before posting a thread to just be sure.

Good luck with the journey. Hope you enjoy your stay on HF.
