Thread: [Suggest me some Anime for 2024 - Winter and Fall](#)

Spam Assassin - December 20, 2024, 8:34 pm

Need some good suggest with OP anime from Fall to Winter.. I have been away from anime since past 5-6 months so I should have quite some content to watch.

What I am looking is for

OP MC (over power MC)

No Sports

Isekai or Original (where the story is based on Adventure Lands - Like Blue Dragon, DBZ, Naruto, Bleach, Date a Live, Yamada-Kun, you get my point)

No Girl MC or Boy turned into a Girl type crap.

No card games or game anime where power is like from thoughts like You know what I mean, idiot MC plays games and thinks his device or cards are some dragon or tiger and is fighting like crazy with some crap name power in Pokemon, go blade master Fire Dragon Blaster Kick type shit (not offending pokemon - it's OG)

Rest are welcome!

Don't know too many from recent seasons but since no one else has suggestions I'll throw some out there.

Farming life on another world - great story and OP MC

the manga is too much harem for me but the anime stripped like 95% of harem elements
2 seasons currently out 3rd will be out soon.
