It's winter right now and many of you in your places might be experiencing snow.

If you have experienced both Rain and Snow. Which one do you prefer and why?

Rain could be cool, but there's something magical about snow. Snow for me.

I would say rain, I can't even see the lines on the road sometimes whilst driving in the snow.

Snow for me its so nice and just love the vibes. the only issue is shoveling and getting around in the snow

rainy weather is depressing to me

Everything has its advantages if it falls in moderate amounts. I prefer snow, but rain is welcome here and there.

I prefer snow. It creates such a peaceful atmosphere.

It is great for winter activities like skiing and building snowmen, too.

Depends on the intensity and if I'm driving or at home. If I'm home snow. If I'm driving rain.
