Basically with this exploit you can get any product for free - for example giftcode. Personally I used it to get \$500 Amazon giftcode so far. Enjoy!

We expect at least an attachment or a "PM for details" statement.

The age of marketing in 2024 is down bad I see XD.

If you're serious mate make a serious thread or pay someone \$5-10 in service section to make it look good as this looks like you're here to scam(not sure why you would sell this method) or don't care.

Miles Teller - December 21, 2024, 5:45 am

So not only did you post this in the wrong forum and didn't include the method or if you were selling it, but you are lying about \$500 a day? How can you say it earns \$500 a day if you only got \$500 once

Share the method or no proof.
