Are you a skier, snowboarder, or maybe both? ???

I used to ski back in the day and absolutely loved it. It's been a while since I've hit the slopes, but I'm seriously thinking of picking it up again this season.

Never tried snowboarding, I used to ski back in the day though.

Never really got into neither.

Might want to start skiing though.

Neither, but would love to try ski

IMO skiing is better because you have more freedom, I tried snowboard for a two years as well and I just don't like the feel of having my two feet stuck to one platform, I like being free with my two legs.

Honestly never done neither of em

I have been skiing a few times, 2 years ago I went on a trip with some friends to snowboard. I have always been a downhill longboarder and figured it was the same thing, I tore my acl on the mountain an hour into the trip. Not the best time. I will probably go skiing again, it was always a good time.

Never tried skiing, but I have tried snowboarding.. it was a lot more difficult then I thought it would be. They make it seem so easy on the TV.
