Good deal for a charging cable for those of you who use Apple products. Limit 3 per customer. The same cable is priced at \$10.31 on Amazon website.

With a prime membership total after taxes comes out to be \$4.32

Keep the high-quality deal threads coming, buddy.

I love WOOT. I started shopping on WOOT because of [Omniscient](#)'s threads he would post about their deals.

Great share for the community during the Holiday time.

I know people who pay \$20+ for a cable at a gas station that is garbage and never lasts. These are the individuals my threads are targeting.
