No, unfortunately i can only allow month to month subscriptions at this time. But in the future this might be possible if tmobile allows weekly service.

Hello I've made contract and reached out in discord have not heard back? Is this still available

TheAutist - January 27, 2025, 12:59 pm

Do you have to make a new one every month, thus getting a new # each month? Or can I keep giving you \$25 each month and having my service topped off so I can keep the same number?

Dynamic each connection or fixed one?

TheAutist - March 31, 2025, 3:28 am

Is this still available? I'm going to open a ticket if it is
