Thread: [Looking for HF Award Designer](#)

Money- - December 23, 2024, 1:12 am

I am looking for someone to design or recreate awards that I want for HF.

I have 2 logos generated via chatgpt if you can recreate it or just even better resize it to HF award resolution like 24x24 and 32x32 then even better.

Cause I am not sure how that works. Apparently you still need to remove the grey background so it fits HF background. But yea.

Either you recreate it based on the 2 logos I will be sending you to refer or you just help resize it without losing the quality?

[contract=tid]Start Contract[/contract]
