Thread: [IDF recently displayed a cache of weapons it had seized from Lebanon](#)

The Israeli Defense Forces (IDF) presented an array of weapons, including rockets and other military equipment, which they say were intended for Hezbollah, the Lebanese militant group. This display highlights Israel's ongoing concerns over the smuggling of arms into Lebanon, which could potentially destabilize the region and threaten Israel's security.

The amount of weapons and equipment is enormous. Due to the quantity of weapons seized, the IDF was unable to transport them all to Israel, and approximately 70% of the seized weapons were destroyed on-site in Lebanon.
