I personally don't like horror genre. But I'm curious what are some of the most scariest movies out there.

The Nun movies were pretty creepy. I don't really watch horror though.

No doubt ffs I just go by the motto that we can co-exist lol I don't gotta see them they don't gotta see me.

The Grudge fucked me up as a kid too I saw it when I was 6-7 and man I couldn't get good sleep for MONTHS I legit thought she was gunna come down my closet as it had attic access ffs.

Some of the scariest movies I've heard of are "The Exorcist," "The Shining," and "Hereditary." Definitely worth a watch if you're looking to be spooked!

It's pretty hard to find a scary movie nowadays which isn't full of generic jump scares. My jumpy favourites would most likely be The Conjuring and Annabelle, good movies.
