Thread: [MAKE MONEY FROM STAKE.COM - BEST STAKE METHOD IN 2024](#)

UltraexTrader - December 25, 2024, 7:58 am

Hello everyone !

I'm going to present you the strategy I'm using for Stake.com that made me almost \$10k so far this month (after I claim my remaining bonuses it will be \$10k+)

This strategy will help you:

- Wager a lot of \$ and progress in the VIP system and claim ton of bonuses
- Make profit

To begin with:

In order to make money with my strategy, you will need to have at least 1.5 hours per day to manually follow the strategy (it's really time consuming and can't be automated)

You will need a decent bankroll to start with : At least \$1000 is recommended.

You also will need to be able to access stake.com and verify your account.

My strategy works 100% if you follow it 1:1 the results are guaranteed.

You can see my stats here:

I will teach you everything you will need in order to maximize the earnings from Stake bonuses + Drops on Telegram. With my method you will be able to claim all these drops daily:

I will only sell 10 copies for this method and the prices are the following:

- Copy 1- \$500
- Copy 2- \$1000
- Copy 3- \$1500
- Copy 4- \$2000
- Copy 5- \$2500
- Copy 6- \$3000
- Copy 7- \$3500
- Copy 8- \$4000

Copy 9-\$4500
Copy 10- \$5000

Live sessions are available with any potential customer. Please contact me only if you're serious about making money, I got no time to waste. Thank you !

Hows your other method going so far? Good? The ones that wanted to post review hasn't show up with any updates yet.

Yeah, other method is going good. I'm no longer accepting customers for it to keep it more private. All my customers of the old method got access to this method tho.

"My strategy works 100%." Based on your screenshot, it seems you got lucky that week and made \$6,729. However, your total fortnightly earnings of only \$6,056 (less) in comparison suggest you experienced significant losses along the way.

To clarify, are you claiming that your method disproves the saying, "The casino always wins" and there is no chance of us dipping below our deposit?

Ofcourse there are some losses with it, but long term you make profit as I got 20 more days of relaods to claim, a monthly bonus that is coming tonight, affiliate prizes to claim, Race winnings too.

It's solid way to make money but it's for people with free time.

No vouch copy for any trusted HF member?

I could provide vouch copy with the terms that the voucher invests at least \$1000 and gives me

50% of the earnings.

In this case , this is not vouch . This terms actually would cost the "voucher" more then purchasing this product .

I am ready to invest \$500 , earn and give you % not more then the price of the product , and would give a very honest review .

What planet do we live on where that is possible, get the fuck out of here nobody would "sell" these methods if it actually worked. It would be a literal money printer. Enough of these type of threads.

Edit: I would also like to point out before OP tries to defend his brainrot method, that no matter what rewards a site offer no matter what affiliates can be used, codes etc they will never net you in the positive in the long run. It is mathematically impossible, these sites are not retards to be outsmarted by some 16 yo skid. Technically you are right, but since you don't know what my method involves you can't judge.

I agree that with gambling in the long turn you are going to loose but our method has an edge which guaranteed makes us on profit.

I'm selling it as like you said they are not stupid and they put limits on these stuff so I can't earn millions doing it with them.

So please stop hating and go back to your slavery life and your 9-5 job. Thanks !

Unlike any other methods presented by users on this or any other forum stake stats don't lie. You can see by screenshare everything is real, you can open the website and look up my account.

These broke haters can hate as much as they want :)

I am sorry but for the sake of all members , i was ready to invest \$500 , but changed my mind .

I am not going to share my conversation with the op , but from my opinion , this is not worth \$500 , not even \$50 , out of question \$5000 , no guarantee here .

I am sorry but i have to be honest and sincere as people ask as they think i invested .

Good luck with your sales .
