Thread: [Where to get freelance jobs without a bank account?](#)

IONv158 - December 27, 2024, 8:08 am

Hello! Please, I need your help!

Is there a website (like upwork or fiverr) or a group where I can work (programming, designs) without a bank account? I want to accumulate experience and everywhere I go I need an account. In my country I have to pay a monthly fee to the bank and since I'm not sure how much money I'll make I'm looking for a safe alternative (if there is one).

Accumulate experience by working on designs for free first.

Personally, I would opt for a neobank account. If you need help you are welcome to PM me.

Good platforms for showcasing your design portfolio to accumulate growth would be sites like Behance and DeviantArt.

Free to share, and tons of people use each platform.
