Thread: [Make your own unique packs! \[Beta\] View Private Instagram accounts! \[Free Service\]](#)

InspectorGadget - December 28, 2024, 8:12 am

I'm currently working on a way to gain view access to a private Instagram (access meaning the ability to view photos and story - NOT actual account access).

I'm having some success but would like some accounts from outside of my circle to test the theory behind what I'm doing.

So, if you know a private (and active) Instagram account that you would like the pictures or story highlights from, post below and then send me a DM, I will explain how it works and what to expect.

Not charging for this, but I need your support by ensuring the account is actively used. There will be no connection between yourself and my service. NOTHING linking you to how I got the username.

I am hoping to automate this in the future.

TLDR: Post below and then DM me with private Instagram account usernames that are actively in use, and we can discuss further in DMs.

Indeed they would but this isn't a bug or exploit mate, safe to say if I had that I'd be submitting a bug bounty already lol

This is an idea I've had for a while and isn't some miracle service either, hence I've asked for the account to be active and I haven't said I'll 100% be able to do it. (Infact this all for accounts is so I can get an idea of the success rate)

I can see why you are pessimistic about it though, too many folk out there promising stuff that doesn't make sense.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first

post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
