It's a pretty good deal, but next time be sure to compare cd key prices here

Eneba has the same game for a key, plus they have a 13% discount code which could get you that game for even 4-5\$ less.

Ah yeah I stopped using Eneba as two of my keys had gotten revoked including my flight sim 2025 :-((((((. Maybe just a bad vendor but they also wouldn't refund me had to dispute.
